

Asia Pacific IPv6 Task Force

2005.2.24

Asia Pacific IPv6 Task Force
Steering Committee
Takashi Arano

Objectives

- APIIPv6TF assists in IPv6 production-level deployment and promotion in economies in the Asia Pacific region. Specific objectives include,
 1. working as a liaison for other Asia Pacific organizations through the provision of recommendation documents regarding IPv6 deployment.
 2. proposing, discussing, implementing and sharing regional and local IPv6 strategies for public, private and promotional organizations.
 3. facilitating the means to promote IPv6 and its related technology through the organization and provision of an open mailing list, Task Force web site, and Task Force managed promotional events.
 4. developing [General Deployment and Transition Guidelines] - a set of smooth IPv6 deployment scenario for Home, Enterprise, Public Sector, ISP and Mobile-operator segments.
 5. investigating and publicizing IPv6 deployment status through diffusion metric identified measurement.
 6. 6. promoting high-level awareness activities through events targeting CEO/COO/Government officials/regulatory bodies.

History

- Feb, 2003: First IPv6 Summit in Asia Pacific at Taipei in conjunction with APRCIOT 2003
 - Program Committee were formed and later turned to be a steering team of APv6 TF
- Aug, 2003: IPv6 Summer Retreat at Seoul
 - General idea were proposed and agreed
- Oct, 2003: APv6TF preparation meeting at KL in conjunction with IPv6 Summit in Malaysia
 - Outlines were discussed and agreed
- 25, Feb., 2004: First APv6 TF meeting here at KL
 - APv6TF charter was ratified.
 - So APv6TF has started in a formal sense.
