# APNIC Planning

APNIC 31

21 - 25 February 2011  
Hong Kong SAR, China

# Operational Planning

- Four key outcomes
  - Delivering Value
  - Supporting Internet Development
  - Collaborating and Communicating
  - Corporate Support

APNIC 31

21 - 25 February 2011  
Hong Kong SAR, China

# Operational Focus

- Delivering Value
  - As a service organization, APNIC provides value to all stakeholders according to their specific needs. The APNIC Secretariat is funded by the membership, and applies those funds in the mutual interest of all Members, through provision of a core set of high-quality services related to Internet address allocation and management.
- Supporting Internet Development
  - APNIC stakeholders share a common interest in the healthy and vigorous development of the Internet throughout all parts of the Asia Pacific region and the world. APNIC supports the maintenance of an open and neutral Internet, based on global addressability of all network components, and minimal barriers to global end-end reachability.

APNIC 31

21 - 25 February 2011  
Hong Kong SAR, China

# Operational Focus

- Collaborating and Communicating
  - APNIC exists within a global community of Internet stakeholders, whose openness and cooperation is critical to the success of the organization and of the Internet itself. APNIC will work other stakeholders in the mutual benefit of respective missions.
- Corporate Support
  - The APNIC Secretariat exists to provide services, and support the activities of APNIC. It operates as a professional team with full accountability to the Members and stakeholders of APNIC
