

APIPv6TF Gathering

29/02/2012 in conjunction with
APRICOT2012/APNIC33 in New Delhi,
India

Agenda

- Greetings from the Chair (5min)
 - Report on APStar participation
 - Report on continuation of the Secretariat by APNIC and the Chair
- Secretariat update (5min)
 - Introduction of the new website
- Efforts to increase IPv6 deployment (40min)
 - How APIIPv6TF can support IPv6 deployment in 2012? (20min)
- Current APIIPv6TF structure (15min)
- Closing (5min)

Secretariat update

- Website renewal
 - Management of the domain name ap-ipv6tf.org was transferred from TWNIC to APNIC
 - The site is hosted on a IPv4 and IPv6 dual stack server in the Secretariat
 - Big thanks to TWNIC's continuous support for managing the site for the last 9 years!
- Resource to manage the site is limited
 - Keep it simple but with useful and up to date information

Website on a DS server
