# Why “why?”?

- We have a stated vision
- We have a “character”
- We can be better understood
- We are more predictable
- We can develop a coherent mission
- We attract dedicated supporters

# APNIC Bylaws

## *Part II.2 – The objects of APNIC are:*

- to provide the service of allocating and registering Internet resources for the purpose of enabling communications via open system network protocols and to assist in the development and growth of the Internet in the Asia and Pacific Rim region;*
- to assist the Asia and Pacific Rim Internet community in the development of procedures, mechanisms, and standards to efficiently allocate Internet resources as a service to the community as a whole;*
- to provide educational opportunities to further Members' technical and policy understanding of the industry;*
- to develop public policies and public positions in the best interest of the Members and to seek legislative and regulatory consideration of issues of general benefit to the Members, where and when appropriate;*
- to serve as the administrative, managerial and operations arm of APNIC Pty Ltd, and to transact all activities, functions and affairs on behalf, and in the name, of the corporation.*

# So, what does APNIC do?

## It's in the Bylaws...

- We are the RIR for the AP region
- We facilitate policy development
- We provide education and training
- We develop public policies and positions
  
- We serve our members

# In other words, APNIC's Mission

- To function as the Regional Internet Registry for the Asia Pacific, in the service of the community of members and others
- To provide Internet registry services to the highest possible standards of trust, neutrality and accuracy
- To provide information, training and supporting services to assist the community in building and managing the Internet
- To support critical Internet infrastructure to assist in creating and maintaining a robust Internet environment
- To provide leadership and advocacy in support of its vision and the community
- To facilitate regional Internet development as needed throughout the APNIC community

# And here's why...

## APNIC's Vision:

*A global, open, stable and secure Internet  
that serves the entire Asia Pacific community.*
