OK, in reponse to Roger Hicks' posting below I've added the people named in the headers of his message to a mailing list I've called nznog. The address to send mail to is nznog@i... There's a fair amount else the Majordomo and related software on that box can do, but there doesn't seem a lot of point to explaining that just yet.

Could people receiving this please reply to me verifying that they have seen it?

Oh, and I am interested in Arron's ideas.

... charitable trust

- InternetNZ got sick of the accountants asking them what all the money was, who was responsible for it, and who was allowed to spend it.
- We set up a trust
- Purposes of the Trust:

"Promote and support forums in the New Zealand region, including the NZNOG, for education and the sharing of knowledge for the Internet operations community"

This year is special...

This year is special...

- The NZNOG conference is 10 years old.
- For the first time the Trust has paid all expenses for an NZ "member" to attend APRICOT.
- We'd like to do this every year.
- Their paper will be/has been presented at APRICOT 13
- It was well received at the NZNOG conference earlier this year.
- We're very pleased.
